Asterisk . . .*. This indicates that the directions immediately following are to be repeated the given number of times in addition to the ones already given. Thus "repeat from * 3 times" means 4 patterns in all.

Sometimes parenthesis are used instead – for example: (ch 10, skip 5 sts, s c in next st) 3 times. This means work whatever appears in the parenthesis then repeat the same thing 3 times giving 4 patterns in all.

try plain or fancy stitches
make a variety of squares
and assemble lively fashions
that win complimentary stares

As soon as you can make nice neat "square" squares you are ready to make any one of the items in this book. They were all designed with the beginner's fingers in mind as well as her style sense. The fashions are young and wearable – with the simple, easy lines of current styling. The stitches are uncomplicated. The "DAWN" Yarns recommended are exactly right for each design. Always use the yarn mentioned in the directions and avoid trouble.

"DAWN" Yarns, like all yarns, vary in twist or ply and size. Therefore it is important not to make substitutions until you are an experienced crocheter. Before starting your work make a sample swatch according to the **GAUGE** given with the directions. Use the yarn and hook specified. If you are getting more stitches to the inch you are working tightly and should change to a larger size hook. If you get fewer stitches to the inch you are working loosely and should change to a smaller size hook. Check your gauge as you progress to assure yourself of a perfectly sized garment.

"DAWN" Yarns are available in Wool, Nylon, Orlon or blends. There is one for every need. Each type comes in a variety of colors to suit every taste – gay or conservative.

NOTE: It is important to purchase all the yarn needed at one time as different dye lots tend to vary and there may be a difference in the shade of color.

To Start

know this

Crochet Hooks used, differ in size according to the material and object to be worked. The largest, usually of Plastic, Aluminum or Wood are used for the heavier kind of work in wool or heavy cotton, steel hooks are preferred for finer types of Crochet in cotton. The Afghan needle is longer than usual and is of uniform thickness.

WINDING WOOL

Winding the wool correctly is important. Never wind wool tightly as this stretches it. Wind several strands around fingers, slip these off fingers. Over these strands, in opposite direction wind a few more strands wrapping yarn around fingers and ball. Continue in this manner, always winding over fingers and in opposite direction from last winding.

and then

Directions for Starching—Dissolve quarter cup starch in ½ cup of cold water. Boil about 1¼ cups of water, remove from flame, then slowly stir the starch mixture into boiling water stirring constantly. Place back on flame until it thickens. As soon as starch is cool enough to handle, dip article and squeeze starch through it thoroughly. Wring out extra starch. The article should be wet with starch but there should be none in the spaces. Pin article in position and leave until throughly dry. If steam iron is used iron after it is dry. If regular iron is used dampen article slightly before pressing. Leave in position until thoroughly dry.

finishing

Washing and Blocking Crochet—Using hot water and a mild soap, make thick suds, add cold water until suds are lukewarm. Let the article stand in the suds a very few minutes, then squeeze in and out until thoroughly clean. Rinse in clear water several times or until sure the soap is removed. Although all colors are fast, with some colors there will always be some excess dye. In that event wash and rinse again until water and article are thoroughly clear. Roll in a bath towel. This will absorb some of the moisture.

The work is now ready for blocking. Lay the work on a padded ironing board or a flat surface and pin in position with rust proof pins, stretching it gently to correct size and shape. Leave in place until dry. Press through a damp cloth and leave in position until thoroughly dry.

CHAIN STITCH (CH ST)

The first step in crocheting is learning to hold the hook and thread comfortably.
Make a loop as illustrated (Ill. No. 1), draw main length of yarn or thread through loop, (Ill. No. 2) insert hook in loop, pull both lengths of yarn to tighten loop on hook (Ill. No. 3). Loop is now ready to make 1st ch st. Hold the hook in right hand with loop on hook. Hold work in left hand and work 2nd ch st, yarn over hook (Ill. No. 4) and draw through loop. Repeat this ch st for required length or as directed.
Any stitch desired may be worked on this foundation ch.

SLIP STITCH (SL ST)

Make a ch desired length, insert hook in 2nd st from hook (see Ill. No. 7 for s c page 8), thread over hook and pull through ch and loop on hook (Ill. No. 5). Continue in this manner across ch. This st is used in joining and wherever an invisible st is required such as joining a row or forming a loop (Ill. No. 6) or for shaping a garment.

5

6

SINGLE CROCHET (S C)

Chain for desired length, skip 1 ch, insert hook in 2nd st from hook (Ill. No. 7), thread over hook and pull through ch, there are now 2 loops on hook, (Ill. No. 8) thread over hook (Ill. No. 9) and pull through both loops, (Ill. No. 10), insert hook in next st of ch and pull loop through (Ill. No. 11) repeat from illustration No. 8 across ch, ch 1, turn.

2nd ROW: Insert hook through both loops of s c, and continue working 1 s c into each st (Ill. No. 13). For succeeding rows of s c, ch 1 to turn, insert hook in top of next stitch picking up both threads or loops of stitch and continue same as first row.

Unless otherwise instructed, pick up both loops of st. When only the back loop of stitch is picked up it forms a rib and is called RIB or SLIPPER STITCH.

No. 19) and repeat in same manner from Illustration No. 15 across ch. Succeeding rows, ch 3, turn (Ill. No. 20) and work next d c in 2nd d c of previous row. The ch 3 counts as 1 d c. (Ill. No. 21 shows 2 rows of d c).

CLUSTER STITCH

Work 3 or 4 sts as specified either s c, d c or tr c in same st always retaining the last loop of each st on hook, thread over and pull through all loops on hook. (Ill. No. 30 shows 3 completed d c cluster sts and the process of making the 4th cluster st).
